Scenario

Let's take the time to understand the specific scenario we are working with so that we can keep the user Story aligned.

Who / Role

Who is the user? Who is this being built for? What is their persona?

Why / Benefits

What does the user want to accomplish? What are they hoping to get out of the job?

What / Action

What is the user's need? What is motivating them? What push and pull factors are influencing them?
